

Magnetic Systems Ltd

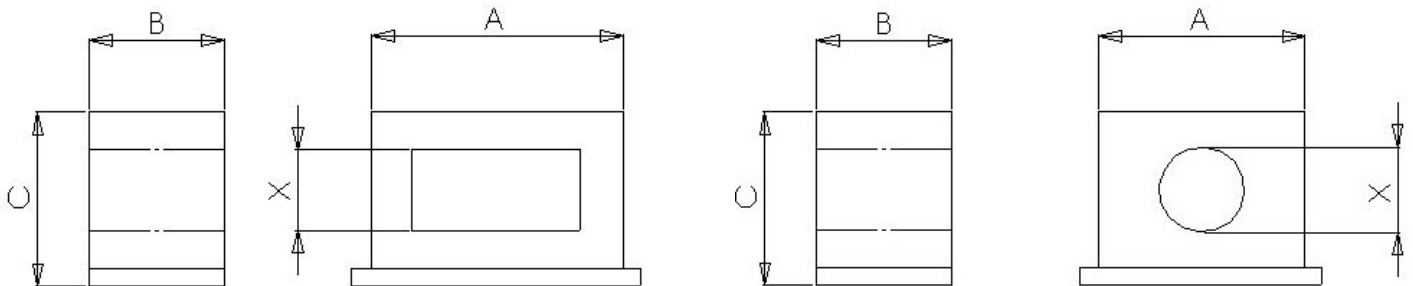

Demagnetisers

Tunnel/Aperture

Type DE30

The DE30 range of demagnetisers are designed to eliminate unwanted magnetism in finished components tools etc. Heavy duty electromagnetic coils generate alternating magnetic fields at high frequency which will remove residue and induced magnetism in the work-piece as it is passed through the aperture of the unit.

Type	A	B	C	Aperture X	Volt	Watt	Kg	£
DE30.00050	185	150	210	50mmØ	220	1000	8	£890.00
DE30.00100	250	220	255	100mmØ	380	2000	20	£940.00
DE30.00150	300	220	325	150mmØ	380	2000	25	£990.00
DE30.00200	400	220	425	200mmØ	380	3000	50	£1120.00
DE30.10020	400	200	325	100 x 200mm	380	4800	25	£1210.00
